

Attachment 3

Investments in the field of construction and reconstruction of water facilities in order to, i.a., increase retention and support counteracting the effects of drought - investment tasks submitted by external entities during public consultations (out of the PW PIP)

No.	River Basin Area	Watercourse	Project's name	Project's scope	Planned/estimated retention capacity [mln m3]	Entity responsible for the project's performance /Applicant	Voivodeship
1	Wisła	Czarna Łada	Construction of the Brodziaki reservoir on the Czarna Łada river in the Bilgoraj commune	Construction of a reservoir with a capacity of 2.5 mln m3 and an area of approx. 100 ha	2.5 mln m3	Bilgoraj Commune Office	Lubelskie
2	Wisła	Karasiówka	Construction of the Kosin reservoir	Construction of a reservoir with a capacity of 3.2 mln m3 and an area of approx. 131 ha	3.2 mln m3	Lublin Voivode	Lubelskie
3	Wisła	Kamienna	Construction of the Bzin reservoir in Skarżysko-Kamienna	Construction of a reservoir with a usable capacity of 2.6 mln m3 and an area of approx. 100 ha	2.6 mln m3	Skarżysko-Kamienna Municipality Office	Świętokrzyskie
4	Wisła	Prudka	Construction of the Plucice reservoir	1. Construction of a reservoir with an area of approx. 80-100 ha 2. Construction of a hydroelectric power plant	0,77 mln m3	Gorzkowice Commune Office/Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
5	Wisła	-	Increasing the retention of rainwater on plot No. 3171 at Zamojska Street in Hrubieszów	It is agreed that the following actions, in terms of the principles of the modernisation, expansion and construction of technical infrastructure systems, will be undertaken on the plot no. 3171, with the area of 1.83 ha, precinct 0144 Podgórze in Hrubieszów: the maintenance of existing facilities and construction equipment of technical infrastructure and construction works involving the construction, extension, reconstruction and renovation of construction equipment of technical infrastructure.	No data	Hrubieszów Municipality	Lubelskie
6	Wisła	Cetynia	Construction of a reservoir on the Cetynia river in Sokołów Podlaski	Construction of a reservoir	No data	Sokołów Podlaski Municipality	Mazowieckie
7	Wisła	Bzura	Construction of a damming weir on the Bzura river in Siemienice	Construction of a damming weir on the Bzura river	2 mln m3	KHBC Sp. z o.o. Ltd Walewice Horse Stud/ Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
8	Wisła	Utrata	Construction of reservoirs on the Utrata river	1. Development of project documentation and obtaining the necessary administrative decisions; 2. Clearing the Utrata river in the section: Kopytów - Utrata estuary to the Bzura river; 3. Construction of a preliminary reservoir with an area of 12-14 ha in order to purify water to a state of at least class 2 purity; 4. Construction of a main reservoir with an area of 75 ha, 2 m deep (up to 3.5 m), with a capacity of approx. 1.2 mln m3, with the function of water retention.	1.2 mln m3	Warszawski Zachodni District	Mazowieckie
9	Wisła	Czarna	Construction of a reservoir	Construction of a reservoir	No data	Paradyż Commune	Łódzkie
10	Wisła	Świder	Construction of a reservoir on the Świder river in Łatowicz commune	1. Development of project documentation, 2. Construction of a reservoir.	0.14 mln m3	Łatowicz Commune Office	Mazowieckie
11	Wisła	Świder	Construction of a reservoir on the Świder river	Construction of a reservoir	0.05 mln m3	Wodynie Commune Office	Mazowieckie
12	Wisła	Krzna, Klukówka	Construction of a retention and recreation reservoir in the delta of the Krzna and Klukówka rivers	Construction of a storage reservoir with a recreational function in the delta of the Krzna and Klukówka rivers (of an area of 25-30 ha)	No data	Biała Podlaska Municipality	Lubelskie
13	Wisła	Łydynia	Construction of a reservoir on the Łydynia River at km 38 + 620	Construction of a retention reservoir with an area of 55.5 ha	1.28 mln m3	Regimin Commune Office	Mazowieckie
14	Wisła	Mulawa	Construction of a gate on the Mława river	Construction of a gate	0.02 mln m3	Rososz Commune Office	Lubelskie
15	Wisła	Lega	Development of documentation and construction of barrages on the Lega river at km: 42 + 000 to 44 + 200, including the renovation (reconstruction) of the Lega river bank reinforcement	1. Development of documentation, 2. Construction of barrages, 3. Renovation of the river bank reinforcement.	0.35 mln m3	Olecko Commune	Warmińsko-Mazurskie
16	Wisła	Igła	Restoration of the water damming devices on the Igła River	Restoration of the proper functioning of water damming devices	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
17	Wisła	Śludwia	Restoration of water damming devices on the Śludwia river	Restoration of water damming devices on the river	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
18	Wisła	Bzura, Moszczenica, Malina, Ochnia, Południowy Canal, Południowy B Canal	Revitalisation of the hydrotechnical infrastructure in the area of the Bzura-Ner valley	Revitalisation of the hydrotechnical infrastructure in the area of the Bzura-Ner valley	No data	Bedno Commune Office	Łódzkie
19	Wisła	Łydynia	Construction of a reservoir in the Łydynia river valley	1. Development of project documentation with administrative decisions, 2. Construction of a reservoir and construction of hydrotechnical structures.	0.17 mln m3 - 3 mln m3	Ojrzeń Commune	Mazowieckie
20	Wisła	Łasica	Construction of the Łasice reservoir	1. Construction of a reservoir	0.16 mln m3	Brochów Commune	Mazowieckie
21	Wisła	Gzówka	Reconstruction of the Siczki reservoir on the Gzówka river	1. Renovation of the overflow and drainage structure, 2. Construction of a fish ladder, 3. Renovation of the front dam of the Siczki reservoir, 4. Construction of a settler in the upper part of the reservoir, 5. Construction of a macrophyte pre-treatment station in the reservoir's bowl, 6. Desilting the reservoir's bowl, 7. Construction of a flushing pipeline	0.45 mln m3	Jedlnia-Letnisko Commune	Mazowieckie
22	Wisła	Uchanka	Development of documentation and construction of a dam on the Uchanka river	1. Development of project documentation with necessary administrative decisions, 2. Construction of a weir (construction of river bed reinforcements).	1 mln m3	Łowicz Municipality Office	Łódzkie
23	Wisła	Witówka II	Construction of a reservoir on the Witówka II river in Grodzisk, Mrozy commune	Construction of a reservoir with an area of 20 ha	0.30 mln m3	Mrozy Commune	Mazowieckie
24	Wisła	Tczówka	Construction of a reservoir on the Tczówka River at km 5 + 000 in Brzezinki Stare, Tczów commune	1. Construction of a reservoir with a natural part and elevation of the area in the form of a mound, 2. Construction of damming and drainage structures: • construction of a fish ladder with a side overflow, • construction of a gate on the Brzeziński Stream at 0 + 440 km, 3. Construction of a renovation barrier at the water inlet from the Tczówka river to the reservoir, 4. Construction of an access road to the facility, 5. Construction of a water intake point for firefighting purposes, 6. Construction of ditches/drainage facilities, 7. Construction of band ditches with structures, 9. Carrying out accompanying works and desludging of drainage ditches adjacent to the investment area with the structures.	No data	Tczów Commune	Mazowieckie
25	Wisła	Żelechlinianka, Rawka	Construction of a reservoir in Naropna in Żelechlinek commune	Construction of a retention reservoir with an area of 15.8 ha	No data	Żelechlinek Commune	Łódzkie

26	Wisła	Grodzieńskie lake	Damming of the Grodzieńskie lake	Stabilisation of the water level in the Grodzieńskie lake	No data	Polish Angling Association, District of Toruń, Circle No. 3 Police and Craft	Kujawsko-Pomorskie
27	Wisła	Rawka	Increasing the retention capacity and preventing floods and droughts in the lowlands of Rawa Mazowiecka Stage 2 - 'Combining the TATAR and DOLNA reservoirs on the Rawa Mazowiecka river into one reservoir'	1. Deconstruction of the Tatar dam and weir and the reconstruction and deepening of the silted bowl of the Tatar reservoir with a trench, 2. Combining the Dolna and Tatar reservoirs into one reservoir, 3. Shaping the bowl, shores and islands of the reservoir, 4. Regulation of the Rawka river in the bowl and above the reservoir, 5. Works related to the outlets of lateral tributaries and works related to regulation structures in the river bed (bottom steps)	0.95 mln m3	Rawa Mazowiecka Municipality Office	Łódzkie
28	Wisła	Utrata	Development of documentation and construction of retention reservoirs/damming structures on the Utrata river in the West Warsaw and Sochaczew districts	1. Development of documentation, 2. Construction of retention reservoirs/damming structures	1.12 mln m3	Kampinos Commune Office	Mazowieckie
29	Wisła	Łupawa	Restoration of the bottom of the Łupawa valley; watercourses of plain to montane levels with Ranunculus fluitans and Callitriche-Batrachion vegetation (3260-1), oxbow lakes (3150-2) and alluvial forests with Alnus glutinosa and Fraxinus excelsior (*91E0)	1. Strengthening the main embankment and unsealing of the remaining fragments of the embankments - creating natural floodplains in the Łupawa valley, 2. Restoration of oxbow lakes	No data	Słowiński National Park	Pomorskie
30	Wisła	Gardna IX and X detention basins	Modernisation of the drainage system in the area of the Gardna IX and X detention basins	1. Renovation of ditches and canals (bottom cutting and desilting) 2. Reconstruction and renovation of gates and culvert-gates 3. Repair of flood embankments and deconstruction of a lakeside dyke	No data	Słowiński National Park	Pomorskie
31	Wisła	Sucha, Wierzbiana	Construction of retention reservoirs in the Wiskitki commune	Construction of retention reservoirs	No data	Wiskitki Commune	Mazowieckie
32	Wisła	Białka	Construction of the Żurawia reservoir on the Białka River in the Biała Rawska commune	Construction of a retention reservoir with an area of 34.40 ha	0.79 mln m3	Biała Rawska Municipality and Commune Office	Łódzkie
33	Wisła	Łęg	Construction of a reservoir on the Łęg river in Krawce, Grębów commune	1. Development of technical documentation 2. Construction of a retention reservoir	No data	Grębów Commune	Podkarpackie
34	Wisła	Potok Proszowicki, Potok Czyżycza, Potok Młynówka, Potok CSK, Potok Babica	Flood protection in the Raba river basin	Development of design documentation for: Task 5. Potok Proszowicki Task 6. Potok Czyżycza Task 7. Potok Młynówka Task 8. Potok CSK Task 9. Potok Babica Task 10. Potok Babica - right and left flood embankment	No data	Bochnia Commune/ Bochnia District Governor's Office	Małopolskie
35	Wisła	Huczwa	Increasing the water retention capacity in the Huczwa river valley by connecting meanders and revitalising the oxbow lake	1. Connecting meanders, 2. Revitalisation of the oxbow lake	No data	Hrubieszów Municipality	Lubelskie
36	Wisła	Moszczanka	Construction of the Wolbórz reservoir on the Moszczanka river	Construction of a reservoir (the Municipality Office - 22,3 ha, the Marshal Office - 11,9 ha)	0.57 mln m3	Wolbórz Municipality Office/Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
37	Wisła	-	Construction of a retention reservoir in district No. 0268 Stawecin	Construction of a retention reservoir with an area of 2.2 ha	0.05 mln m3	Hrubieszów Municipality	Lubelskie
38	Wisła	Moszczenica	Restoration of the proper functioning of the reservoir on the Moszczenica river in Wola Branicka	Revitalisation of the existing mill reservoir (through desludging)	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
39	Wisła	Wieczniówka	Construction of the Wieczniówka reservoir in the Wieczniówka Kościelna commune (Pogorzel)	Construction of the Wieczniówka reservoir in the Wieczniówka Kościelna commune (Pogorzel)	0.15 mln m3	Stowarzyszenie Zwycię Przyjazna i Bezpieczna 7-ka' Association	Mazowieckie
40	Wisła	Gwiazda	Restoration of the Mławka tributary of the Gwiazda river	1. Restoration of the river, 2. Renewal of the complex of ponds.	0.30 mln m3	Stowarzyszenie Zwycię Przyjazna i Bezpieczna 7-ka' Association	Mazowieckie
41	Wisła	Głogowianka, Ochnia	Increasing a retention capacity of the Strzelce commune	1. Construction and reconstruction of irrigation and drainage devices in the Strzelce commune, 2. Construction of two retention reservoirs, 3. Construction of a hybrid irrigation and drainage system.	No data	Commune Water Company in Strzelce	Łódzkie
42	Wisła	Gielczew	Construction of the Piaski reservoir	Construction of a retention reservoir with an area of 109 ha	1.1 mln m3	Piaski Municipality Office/Piaski Commune	Lubelskie
43	Wisła	Bzura river catchment	Increasing the water retention capacity in the Bzura catchment area in the Kutno, Łowicz and Łęczycza districts	1. Development of water retention in the communes in the Kutno, Łowicz and Łęczycza districts, including river retention, the use of green infrastructure and the optimisation of landscape structure, 2. Development of an inventory of the technical condition of irrigation and drainage devices including the concept of renovation and a variant analysis of environmental impact 3. Development of design documentation for new hydrotechnical devices (weirs, gates) and modernisation of the existing ones indicated in the Water Retention Concept (developed in point 1) 4. Performance of construction works, including the construction of weirs and gates, renovation of the existing damming devices, and reconstruction of drainage devices in terms of changing the function from drainage to retention (slowing down the runoff).	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
44	Wisła	Liwiec	Construction of a reservoir in the Stara Wieś village	Construction of a reservoir	No data	Fundacja Makroregion' Foundation	Mazowieckie
45	Wisła	Rawka	Increasing the retention capacity of the Rawka river	1. Construction of 3 retention reservoirs, 2. Construction of new weirs and reconstruction of existing weirs.	No data	Rawa Mazowiecka Commune Office	Łódzkie
46	Wisła	Gościbia	Construction of a reservoir on the Gościbia stream in Sulkowice	1. Construction of a reservoir with a capacity of approx. 1 650 thousand m ³	1.7 mln m3	Sulkowice Municipality Office	Małopolskie
47	Wisła	Utrata	Construction of a reservoir on the Utrata river	Construction of a retention reservoir	No data	Kampinos Commune Office	Mazowieckie
48	Wisła	Jeziorka	Renovation of a weir and reservoir desludging in the Wilczoruda village	1. Renovation of a weir, 2. Cleaning the bottom of the reservoir from silt deposits.	No data	Pniewy Commune Office	Mazowieckie
49	Wisła	Nil, Górnianka, Świercówka	Reconstruction of water facilities in poor technical condition in the Kolbuszowa commune	1.Reconstruction of a gate on the Nil river in Kolbuszowa at km 23 + 710. 2. Reconstruction of a gate on the Górnianka stream in Kolbuszowa Górna at km 2 + 630, 3. Reconstruction of two gates on the Świercówka river in Świerców at km 2 + 900 and in Nowa Wieś at km 4 + 280.	No data	Kolbuszowa Municipality Office	Podkarpackie
50	Wisła	Żbikówka	The plan of the modernisation of the Żbikówka river bed in the section from the estuary to the Utrata river in Pruszków to H. Brodaty street in Warsaw-Ursus	Development of the plan of the river bed modernisation	0.195 - 0.245 mln m3	Piastów Municipality	Mazowieckie

51	Wisła	Sopotnia Mała	Construction of a dam and the Sopotnia small reservoir on the Sopotnia Mała stream at km 6 + 125	Construction of a reservoir with a capacity of 80,000 m ³	0.08 mln m ³	Jeleśnia Commune Office	Śląskie
52	Wisła	Unnamed watercourse (the Glinna river tributary)	Construction of a dam and the Korbielów small retention reservoir on an unnamed stream, a tributary of the Glinna river	Construction of a reservoir with a capacity of 110,000 m ³	0.11 mln m ³	Jeleśnia Commune Office	Śląskie
53	Wisła	Zdrowskie lake	Restoration of lakes in the Łąck commune, Plock district	Restoration of lakes	No data	Marshal of the Mazowieckie Voivodeship	Mazowieckie
54	Wisła	Zielkówka	Development of design documentation with the extension of the small retention reservoir on the Zielkówka river	1. Development of project documentation with necessary administrative decisions, 2. Extension of the small retention reservoir (construction of the reservoir's banks reinforcements).	0.10 mln m ³	Łowicz Municipality Office	Łódzkie
55	Wisła	Potok Bystra catchment	Implementation of the anti-erosion reinforcement of skidding trails in the catchment area of the Bystra stream in Kamesznica above the water intake at km 3 + 600	Execution of the anti-erosion reinforcement of skidding trails (wooden bulkheads)	No data	Miłówka Commune Office	Śląskie
56	Wisła	Krupa	Reconstruction of the Wał retention reservoir	Reconstruction of a retention reservoir	No data	Milejczyce Commune	Podlaskie
57	Wisła	Zian	Construction of the Domaniew retention reservoir on the Zian river	Construction of a retention reservoir	0.033 mln m ³	Dalikowo Commune Office	Łódzkie
58	Wisła	Leksandrówka II	Construction of a reservoir on the Leksandrówka II river	Construction of a water dam at the tributary to the Leksandrówka II river	0.01 mln m ³	Nowy Wiśnicz Commune	Małopolskie
59	Wisła	Złota Nitka	Construction of a reservoir in Plusy on the Złota Nitka river	Construction of a retention reservoir	No data	Księżpól Commune	Lubelskie
60	Wisła	Drzewiczka	Construction of the Sitowa reservoir	Construction of a retention reservoir with an area of 22 ha	0.33 mln m ³	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
61	Wisła	Czarna Maleniecka	Construction of the Czarna Konecka II - Skórkowice reservoir	Construction of a retention reservoir with an area of 89 ha	1.60 mln m ³	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
62	Wisła	Stradzewski Canal	Restoration of the water damming devices on the Stradzewski Canal and its tributaries	Reconstruction of water damming devices on the Stradzewski Canal	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
63	Wisła	Polczany	Construction of a drinking water reservoir on the Polczany watercourse in Brenna	1. Development of project documentation and obtaining the necessary administrative decisions, 2. Construction of the reservoir.	0.104 mln m ³	Brenna Commune Office	Śląskie
64	Wisła	-	Increasing the retention of surface waters in the Łomazy commune	1. Construction of retention reservoirs 2. Construction of weirs	No data	Łomazy Commune Office	Lubelskie
65	Wisła	-	Management of rainwater in the Skotniki Park and the Lilli Wenedy Park	1. Preparation of a feasibility study with an analysis of precipitation distribution and the optimisation of solutions, conceptual design and development of the concept in the selected places, 2. Connecting the roof of the building of the School and Kindergarten Complex No. 7 to the local reservoir and a rain garden, 3. Preparation of a feasibility study with an analysis of precipitation distribution and the optimisation of solutions, as well as a conceptual, constructional and executive design, and obtaining appropriate permits for the Lilli Wenedy Park, 4. Reconstruction of the existing infrastructure and construction of new infrastructure, including: the reconstruction of the pond's power supply, revitalisation of ponds with increased retention, construction of a monitoring system, and connections for rainwater intake.	No data	City Greenery Board in Kraków	Małopolskie
66	Wisła	Huczwa	Construction of a dam with a reservoir on the Huczwa river	Construction of a retention reservoir with an area of approx. 300 ha	No data	Hrubieszów Municipality	Lubelskie
67	Wisła	Kameszniczan ka	Construction of a reservoir at the mouth of the Kameszniczan ka stream to the Sola river	Construction of a retention reservoir with an area of 8 ha	0.32 mln m ³	Miłówka Commune Office	Śląskie
68	Wisła	Krzna	Construction of a weir on the Krzno river in Porosiuki	Construction of a weir	0.16 mln m ³	Porosiuki Village Council	Lubelskie
69	Wisła	-	Modernisation of a reservoir with an area of 0.06 ha in Mariampol, plot No. 14, Paradyż commune	Modernisation of a reservoir	No data	Paradyż Commune	Łódzkie
70	Wisła	-	Modernisation of a reservoir with an area of 1.10 ha in Mariampol, plot No. 56/6, Wielka Woda, Paradyż commune	Modernisation of a reservoir	No data	Paradyż Commune	Łódzkie
71	Wisła	Radomka	Construction of a reservoir in Jedlińsk on the Radomka river at km 40 + 800	Construction of a reservoir with an area of approx. 40 ha	0.60 mln m ³	Jedlińsk Commune Office	Mazowieckie
72	Wisła	Łęg	Reconstruction of the oxbow lake of the Łęg river in Gorzyce on the plots No. 470/3, 470/6, 722/19	1. Cleaning and desludging of the oxbow lake of the Łęg river, 2. Reconstruction of culverts	No data	Gorzyce Commune Office	Podkarpackie
73	Wisła	Potok Bobrowski (Skodzierska river)	Reconstruction of a former lock in the Potok Bobrowski riverbed	Reconstruction of a lock	No data	Żyraków Commune Office	Podkarpackie
74	Wisła	Zielawa	Construction of a weir and a reservoir on the Zielawa river	1. Construction of a weir 2. Construction of a retention reservoir	No data	Łomazy Commune Office	Lubelskie
75	Wisła	Żarnica	Construction of a weir on the Żarnica river	Construction of a weir	No data	Łomazy Commune Office	Lubelskie
76	Wisła	Zielawa	Construction of a weir on the Zielawa river	Construction of a weir	No data	Łomazy Commune Office	Lubelskie
77	Wisła	Zielawa	Renovation of a weir on the Zielawa river in Studzianka and a retention reservoir in Jusaki-Zarzeka	1. Renovation of a weir 2. Renovation of a reservoir	No data	Łomazy Commune Office	Lubelskie
78	Wisła	Potok Drożdżów	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Drożdżów)	1. Construction of a retention reservoir, 2. Waterstream regulation	No data	Węgierska Górka Commune Office	Śląskie
79	Wisła	Potok Fulałów	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Fulałów)	1. Construction of a retention reservoir, 2. Waterstream regulation 3. Reconstruction of a dam - 2 pcs	No data	Węgierska Górka Commune Office	Śląskie
80	Wisła	Potok Galuszów	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Galuski)	1. Construction of a retention reservoir, 2. Waterstream regulation	No data	Węgierska Górka Commune Office	Śląskie
81	Wisła	Potok Grzegorzów	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Grzegorzów)	1. Construction of a retention reservoir, 2. Waterstream regulation 3. Reconstruction of a dam - 2 pcs	No data	Węgierska Górka Commune Office	Śląskie
82	Wisła	Potok Kubiców	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Kubiców)	1. Construction of a retention reservoir, 2. Reconstruction and modernisation of a riverbed, 3. Construction of a dam - 2 pcs	No data	Węgierska Górka Commune Office	Śląskie
83	Wisła	Potok Loraniec	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Loraniec)	1. Construction of a retention reservoir, 2. River's bank strengthening, 3. Construction of a dam, 4. Repair of a concrete riverbed	No data	Węgierska Górka Commune Office	Śląskie
84	Wisła	Potok Olejnik	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Olejnik)	1. Construction of a retention reservoir, 2. Waterstream regulation, 3. Construction of a dam	No data	Węgierska Górka Commune Office	Śląskie

85	Wisła	Potok Talków	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Talków)	Construction of a retention reservoir	No data	Węgierska Górka Commune Office	Śląskie
86	Wisła	Potok Tynionka	Leveling the outflow in the cross-section of the water intake for Cisiec in order to protect it against flood and drought (Potok Tynionka)	1. Construction of a retention reservoir, 2. Waterstream regulation, 3. Construction of a dam	No data	Węgierska Górka Commune Office	Śląskie
87	Wisła	Cedron, Skawinka	Renaturation of the Cedron and Skawinka valleys, including restoration of the ecological corridor of these streams / rivers and thus increasing their retention capacity in the floodplain	Restoration of watercourses	0.16 mln m3	Skawina Municipality and Commune Office	Małopolskie
88	Wisła	Huczwa	Construction of a retention reservoir on plot No. 2294, precinct 0144 Podgórze in the valley of the Huczwa river in Hrubieszów	Construction of a retention flood reservoir of the area 18.5 ha, including 15.5 ha of water surface	3.76 mln m3	Hrubieszów Municipality	Lubelskie
89	Wisła	Przybyłów reservoir	Reconstruction of the Przybyłów reservoir in Gorzyce with its infrastructure	1. Desludging of the reservoir, 2. Improvement of the existing drainage system connecting the Przybyłów reservoir with the Łęg river	No data	Gminy Gorzyce Commune Office	Podkarpackie
90	Wisła	-	Construction of a retention reservoir on plot no. 1616, precinct 0144 Podgórze with an area of 11.13 ha in Hrubieszów	Construction of a retention reservoir with an area of 11.13 ha	No data	Hrubieszów Municipality	Lubelskie
91	Wisła	Wisła	Construction of a weir or a dam, located on the Wisła River below the water intakes for Warsaw	Construction of a weir or dam	No data	Municipal Water and Sewerage Company (MPWiK) in Warsaw	Mazowieckie
92	Wisła	Zielawa	Construction of a weir on the Zielawa river, at the bridge to Bordziówka, and a small retention reservoir	1. Construction of a weir, 2. Construction of a small retention reservoir with an area of about 5 ha	0.12 mln m3	Rososz Commune Office	Lubelskie
93	Wisła	Wisła	Construction of the Podwale barrage on the Wisła River in Ispina	Construction of a barrage	No data	Drwinia Commune Office	Małopolskie
94	Wisła	Zgórsko	Construction of a reservoir in Zgórsko-Podbor on the Zgórsko river in the Radomyśl Wielki commune	Construction of a retention reservoir	No data	Radomyśl Wielki Municipality Office	Podkarpackie
95	Wisła	Pratwa	Increasing the retention capacity of the Biskupice Brzózki reservoir	Extension/reconstruction of a reservoir	No data	Fundacja Makroregion' Foundation	Mazowieckie
96	Wisła	Wieprz	Construction of a retention reservoir in the Uleź commune	Construction of a retention reservoir	0.17 mln m3	Uleź Commune	Lubelskie
97	Wisła	-	Construction and modernisation of retention reservoirs in the Łódzkie Voivodeship	1. Construction and modernisation of retention reservoirs and other water retention facilities, including reservoirs resulting from the provisions of the Flood Risk Management Plan for the Wisła Basin Area (Krasnodeby, Tkaczewska Góra); priority, resulting from the Voivodeship Small Retention Program (Tkaczewska Góra, Kurów, Klonowa, Ruda, Chojny, Bechlice-Konstantynów, Żurawia, Kamiensk, Wyręba); of implementation is assigned if a reservoir is located in a zone at risk of very strong desertification (Cedrowice, Dzierżawy, Drozdów, Ferdynandów, Grodno, Iwonie, Krzepocinek-Wola Dąbrowa, Kutno-Dybbów, Leźnica Wielka, Małyń, Ralewice, Rgilewka, Sierpów, Strzelce I, Swinice Warckie, Byszczyna, Wilczyca, Zawady-Kutno)	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
98	Wisła	Iżanka	Construction of a multifunctional storage reservoir in the Mirzec commune	Construction of a multifunctional storage reservoir	0.88 mln m3	Mirzec Commune	Świętokrzyskie
99	Wisła	Świerczówka	Construction of a reservoir on the Świerczówka river in Świerczów	Construction of a reservoir	No data	Kolbuszowa Municipality Office	Podkarpackie
100	Wisła	Malinianka	Development of project documentation and construction of a reservoir in the upper section of the Malinianka stream in Jelna	1. Development of documentation, 2. Construction of a retention reservoir	0.05 mln m3	Nowa Sarzyna Municipality and Commune Office	Podkarpackie
101	Wisła	Łowisko	Development of project documentation and reconstruction of the reservoir in the middle section of the Łowisko stream in Wola Zarczycka	1. Development of documentation, 2. Reconstruction of the retention reservoir	0.01 mln m3	Nowa Sarzyna Municipality and Commune Office	Podkarpackie
102	Wisła	Kosódka, Gołda	Renovation of hydrotechnical structures (gates) on the Kosódka river (tributary of Biebrza) and its tributary, the Gołda river, and restoration of the watercourse's bed	1. Reconstruction of hydrotechnical structures in order to provide a drainage and irrigation function, 2. Watercourse's restoration	No data	Biebrzański National Park	Podlaskie
103	Wisła	Gostynka	Increasing the retention capacity of the 'Old Gostynka river bed' and the valley of the river, which supplies the Paprocany lake	1. Plan of works for the reconstruction of hydrotechnical devices built in the river bed, the river bed and the reed bed installation to treat wastewater	No data	Tychy Municipality Office	Śląskie
104	Wisła	Bobrówka	Preparation of documentation and construction of damming weirs on the Bobrówka river	1. Development of project documentation and obtaining the necessary administrative decisions 2. Construction of weirs (construction of river bed's reinforcements)	No data	Łowicz Municipality Office	Łódzkie
105	Wisła	Mławka	Construction of a new reservoir on the Mławka watercourse in the Lipowiec Kościelny commune	Construction of a new reservoir on the Mławka watercourse in the Lipowiec Kościelny commune, on the Lipowiec Kościelny - Turza Mała section	0.5 mln m3	Stowarzyszenie Zwykłe Przyjazna i Bezpieczna 7-ka' Association	Mazowieckie
106	Wisła	Wkra	Construction of a reservoir on the Wkra river in the Strzegowo commune	Construction of a reservoir on the Wkra river in the Strzegowo commune (Unierzyż)	1.3 mln m3	Stowarzyszenie Zwykłe Przyjazna i Bezpieczna 7-ka' Association	Mazowieckie
107	Odra	-	Reconstruction and modernisation of small retention reservoirs in villages	Reconstruction and modernisation of 11 small retention reservoirs in the following villages located in the Środa Śląska: Juszczyń, Jugowiec, Lipnica, Cesarzowice (2 pcs), Święte, Kobylniki, Proszków, Szczepanów, Rakoszyce, Komornik, with a total area of 4.0 ha and a capacity of about 10,000.	0.01 mln m3	Środa Śląska Municipality Office/Środa Śląska Commune	Dolnośląskie
108	Odra	Nysa Mała	Construction of a retention reservoir for Kwietniki	Construction of a retention reservoir with an area of approx. 43 ha	0.6 mln m3	Paszowice Commune	Dolnośląskie
109	Odra	No data	Construction of a reservoir for Grobla and Pogwizdów	Construction of a retention reservoir with an area of approx. 41 ha	No data	Paszowice Commune Office	Dolnośląskie
110	Odra	Mierzeczka Struga	Construction of the Chrapów reservoir in the Dobiegniew commune on the Mierzeczka Struga watercourse	Construction of a retention reservoir with hydrotechnical devices	0.65 mln m3	Dobiegniew Municipality Office	Lubuskie
111	Odra	Sierpnica	Construction of a fire protection reservoir on the Sierpnica watercourse, including reconstruction and supplementing the retaining walls, as well as damming water, within the limits of Sierpnica	1. Reconstruction of damaged and missing retaining walls, 2. Construction of cascade damming of water.	No data	Gluszyca Commune	Dolnośląskie
112	Odra	Prosna	Construction of the Okoń reservoir on the Prosna river	Construction of a retention reservoir with an area of approx. 25.8 ha	0.05 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
113	Odra	Trojanówka	Construction of the Samy reservoir	Construction of a retention reservoir with an area of 123 ha	3 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
114	Odra	Drozdów Canal, tributary to Brudnówka	Construction of the Dzierżawy-Drozdów reservoir (A Drozdów Canal)	Construction of a retention reservoir with an area of 62 ha	0.93 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
115	Odra	Grabia	Construction of the Łask reservoir	Construction of a retention reservoir with an area of 10.9 ha	0.16 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie

116	Odra	Prosna	Reconstruction of the weir on the Prosna river in Skrzyńki	1. Development of project documentation and obtaining the necessary administrative decisions 2. Reconstruction and construction of new dams 3. Reconstruction of a weir.	No data	Grabów nad Prosną Municipality and Commune Office	Wielkopolskie
117	Odra	Prosna	Reconstruction of the dams on the Prosna river	1. Development of project documentation and obtaining the necessary administrative decisions 2. Reconstruction and construction of new dams	No data	Grabów nad Prosną Municipality and Commune Office	Wielkopolskie
118	Odra	Syhelec, Zubrzyca, Piekielnik, Bebeński	Construction of a retention reservoir	Construction of a storage reservoir with a capacity of 80,000 m ³ to 100,000 m ³ . The proposed places for the investment are: the Syhelec stream in Lipnica Mała, the Zubrzyca stream in Zubrzyca Górna, the Piekielnik stream in Jablonka, and the Bebeński stream in Podwik.	0.08-0.10 mln m ³	Jablonka Commune Office	Małopolskie
119	Odra	Odra	Increasing the retention of surface water capacity in the Olawa forest district	1. Within the forest part of the embanked flood plains of the Odra Olawa-Lipka river (Bystrzyca, Olawa forestry), it is necessary to restore the full efficiency of the existing pre-war irrigation and drainage facilities useful for partial transfers of water to the extremely valuable (in terms of nature and economically) area of a riparian forest complex during the Odra river floods (already above average levels). 2. The Kotowice riparian forest complex and fragments of Dziuplina forestry (Wojńów and Gajków complexes near Wrocław) require similar activities. 3. Reconstruction of existing small mid-forest retention reservoirs or construction of new ones, connected to a network of drainage ditches requiring the renovation (Karwiniec, Paczków, Milocice, Łaziszki, Chrzastawa, Oleśnica Mała). 4. Restoration of the full efficiency of the existing, dense network of irrigation and drainage devices, located in some of the remaining forest complexes of the Olawa Forest District, connected with rivers and other watercourses in the adjacent areas of the Widawa, Olawa, Smortawa and other smaller rivers, along with the function of damming and retaining water in the riverbeds and the existing depressions (in the Kopalina, Jelcz, Janików, Oleśnica Mała, Łaziszki, Chrzastawa, Dziuplina forest districts).	No data	Olawa Forest District Office	Dolnośląskie
120	Odra	Stradomka	Construction of reservoirs on the Stradomka River, among others Kamyk / Lubomierz / Zegartowice	Construction of retention reservoirs	No data	Bochnia Municipality	Małopolskie
121	Odra	Prosna	Restoration of damming on 5 weirs located on the Prosna river in the Wieruszów district	Installing movable gates on the existing weirs	No data	Wieruszów District Governor's Office	Łódzkie
122	Odra	Obra	Reconstruction of the damming weir on the Obra river below the Zbaszyńskie lake in Perzyny, Zbaszyń commune	Reconstruction of a weir	5 mln m ³	Nowy Tomyśl District Governor's Office	Wielkopolskie
123	Odra	Obra	Reconstruction of the needle weir on the Obra river in Rybojady, Trzciel commune	Reconstruction of a weir	6 mln m ³	Trzciel Municipality Office	Lubuskie
124	Odra	Odra	Restoration of the efficiency of the existing irrigation and drainage facilities transferring and retenting water from the Odra river during its flooding to the adjacent complex of riparian forests in the Kotowice forest district	1. Cleaning and repairing the bank water intake from the Odra river below the lock in Ratowice. 2. Performing necessary maintenance works on some sections of ditches and drainage canals	No data	Olawa Forest District Office	Dolnośląskie
125	Odra	Masłówka	Construction of the Masłówka Reservoir located on the border of three communes: Rawicz, Żmigród and Wąsosz, and two voivodeships: Wielkopolskie and Dolnośląskie	Construction of a retention reservoir	3 mln m ³	Rawicz Municipality Office, Żmigród Municipality Office, Wąsosz Municipality Office	Wielkopolskie, Dolnośląskie
126	Odra	Masłówka	Construction of a retention reservoir	Construction of a retention reservoir	3 mln m ³	Trzebnica Commune	Dolnośląskie
127	Odra	Topiec	Construction of the Jabłonna Small Retention Reservoir	Construction of a retention reservoir	No data	Mayor of the Władysławów Commune	Wielkopolskie
128	Odra	Pyszna	Maintenance of the Pyszna river and renovation of damming devices	1. Maintenance of the river 2. Renovation of damming devices	No data	Wieluń Commune	Łódzkie
129	Odra	Obra	Development of documentation and renovation of weirs on the Obra River	1. Development of project documentation and obtaining necessary administrative decisions, 2. Reconstruction (Rybojady / Policko) and renovation (Perzyny) of the weirs	11.63 mln m ³	Międzyrzecz Commune	Lubuskie, Wielkopolskie
130	Odra	Struga Spycimierska	Restoration of watercourses and natural retention in the Uniejów commune	1. Reconstruction of the Struga Spycimierska watercourse on the section from km 0 + 000 to approx. km 3 + 900 with gates to the maximum riverbed retention, 2. Construction of devices to transfer water to the 'Uroczyska Zielenie' area and oxbow lakes in investment areas	0,04 mln m ³	Uniejów Commune	Łódzkie
131	Odra	Prosna	Construction of a retention reservoir on the Prosna river in Gorzów Śląski	Construction of a retention reservoir with an area of approx. 110 ha	2 - 23 mln m ³	Gorzów Śląski Municipality Office	Opolskie
132	Odra	Prosna	Construction of the Wieruszów reservoir	Construction of a retention reservoir with an area of 760 ha and the capacity of 17,250 thousand m ³	17.25 mln m ³	Wieruszów Commune/Wieruszów District Governor's Office	Łódzkie
133	Odra	Bóbr	Geomorphological analysis and retention of the Krzywianiec reservoir and its surroundings	Environmental and business analysis of the possibility of increasing the retention capacity of the Krzywianiec reservoir	No data	PGE Energia Odnawialna S.A.	Lubuskie
134	Odra	Bóbr	Geomorphological analysis, optimisation of works and retention of the Zbiornik Górny in the Dychów Hydroelectric Power Plant and its impact on the environment	Analysis of the possibility of increasing the maximum damming level of the Zbiornik Górny of the Dychów HPP	No data	PGE Energia Odnawialna S.A.	Lubuskie
135	Odra	Bóbr	Geomorphological analysis of the Zbiornik Dolny and its surroundings in the Dychów Hydroelectric Power Plant	Analysis of the possibility of increasing the maximum damming level and/or retention capacity of the Zbiornik Dolny of the Dychów HPP	No data	PGE Energia Odnawialna S.A.	Lubuskie
136	Odra	Wierznicza/Warta	Construction of the Krzętle reservoir	Construction of a retention reservoir	No data	Osjaków Commune	Łódzkie
137	Odra	Wierznicza	Regulation of the Wierznicza river from km 6 + 000 to km 12 + 000	1. Shaping the longitudinal and cross-section profiles and shaping the horizontal profile of the riverbed, 2. Renovation and reconstruction of existing buildings, 3. Repair of slopes and reinforcements, 4. Construction of new buildings	No data	Osjaków Commune	Łódzkie
138	Odra	Warta	Renovation of the dams in Osjaków and Kajda	Renovation of the dams	No data	Osjaków Commune	Łódzkie
139	Odra	-	Construction of the Gola – Wójcin reservoir	Construction of a reservoir	0,002 mln m ³	Bolesławiec Commune	Łódzkie
140	Odra	-	Construction of the Posada - Gola reservoir	Construction of a reservoir	0,01 mln m ³	Bolesławiec Commune	Łódzkie
141	Odra	Oleśnica	Construction of a small retention reservoir on the Oleśnica river in Choiny	Construction of a reservoir	No data	CHOJNY Water Company	Łódzkie
142	Odra	Niesób	Construction of the Wieruszów reservoir on the Niesób river	Construction of a retention reservoir with an area of 21 ha and a capacity of 540 thousand m ³	0.54 mln m ³	Wieruszów District Governor's Office	Łódzkie
143	Odra	Woda Rozmierecka, Jedrynia	Construction of retention reservoirs using water from the exploitation of open-cast mines operating in the Strzelce Opolskie commune	Construction of retention reservoirs	0.12 mln m ³	Strzelce Opolskie Municipality Office	Opolskie
144	Odra	Widawka	Construction of the Podgórze reservoir	Construction of a retention reservoir with an area of 105 ha	1.26 mln m ³	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie

145	Odra	Widawka	Construction of the Restarzew reservoir	Construction of a retention reservoir with an area of 102 ha	1.12 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
146	Odra	Dopyły Neru	Construction of the Świnice Warckie reservoir	Construction of a retention reservoir with an area of 21 ha	0.315 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
147	Odra	Zian	Construction of a small retention reservoir	Construction of a retention reservoir with an area of 3 ha	0.045 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
148	Odra	Ner	Construction of the Bechcice - Konstantynów retention reservoir	Construction of a retention reservoir with an area of 160 ha	2.4 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
149	Odra	Oleśnica	Construction of the Chojny reservoir	Construction of a retention reservoir with an area of 95 ha	1.47 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
150	Odra	Pisia	Construction of the Iwonie reservoir	Construction of a retention reservoir with an area of 43 ha	0.516 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
151	Odra	Lużyca	Construction of the Klonowa reservoir	Construction of a retention reservoir with an area of 14 ha	0.196 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
152	Odra	Pisia	Construction of the Małyń reservoir	Construction of a retention reservoir with an area of 42 ha	0.504 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
153	Odra	Myja	Construction of the Pustelnik reservoir	Construction of a retention reservoir with an area of 10 ha	0.12 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
154	Odra	Szadkówka	Construction of the Ralewice reservoir	Construction of a retention reservoir with an area of 35 ha	0.42 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
155	Odra	Widelka	Construction of the Rębieszów - Pstrokonie reservoir	Construction of a retention reservoir with an area of 10 ha	0.15 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
156	Odra	Kurów Piaski Canal	Construction of the Kurów reservoir	Construction of a retention reservoir with an area of 50 ha	0.60 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
157	Odra	Jeziorka, Kamionka	Construction of the Kamięńsk reservoir	Construction of a retention reservoir with an area of 62,4 ha	0.567 mln m3	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
158	Odra	-	Construction and reconstruction of drainage facilities in the Strzelce commune	1. Construction of 2 retention reservoirs, 2. Construction of the hybrid irrigation and drainage system	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
159	Odra	Stradunia	Biernatów - construction of a small retention reservoir	Construction of a small retention reservoir	No data	Glubczyce Municipality Office	Opolskie
160	Odra	Koziegłowskie lake	Construction of a gate weir at the outflow of the Koziegłowskie lake in the Struga Biskupia river catchment area	Construction of a gate weir	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
161	Odra	Kosewskie lake	Construction of a dam on the tributary from the Kosewskie lake below the Kanske lake, the Powidzkie Lake	Construction of a dam	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
162	Odra	Rów Ostrowski	Construction of a dam on the Rów Ostrowski below the Smolnickie lake	Construction of a dam	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
163	Odra	-	Construction of infiltration ponds near the Ługi wastewater treatment plant or change of the direction of treated water discharge towards the sources of the Struga Powidzka watercourse	1. Construction of infiltration ponds in the area of the former Ługa gravel pit, 2. The transfer of water from the Ługi wastewater treatment plant through a pipeline forcing water to a mid-forest pond located in the area of Dolina	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
164	Odra	Dopyły z Andrzejewa	Construction of infiltration ponds near the Siemno wastewater treatment plant or transfer of water from the wastewater treatment plant to the Dopyły z Andrzejewa River and further to the Kosewskie lake	Construction of infiltration ponds in the vicinity of the Siemno sewage treatment plant or a pipeline discharging water from the treatment plant to the sources of the Dopyły z Andrzejewa River	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
165	Odra	Struga Biskupia, Koziegłowskie lake	The damming of the Biskupia Struga above and below the Koziegłowskie lake	Construction of hydrotechnical structures for damming and regulating the flow of water, damming dams and stone barriers	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
166	Odra	-	Construction of a retention reservoir in Raclawice Śląskie - Dzierżysławice	Construction of a retention reservoir with an area of 735 ha	No data	Głogówek Commune	Opolskie
167	Odra	Ruda	Retention and management of rainwater and snowmelt in urbanised areas	1. Development of design documentation and construction of a complex of retention reservoirs in the Ruda river catchment area in Żory 2. Construction of a structure for the management of rainwater from higher-lying industrial areas through temporary retention, located in the upper course of the Ruda river, in the area of Jana Pawła II street from Spółdzielcza street in Żory 3. Reconstruction of the river's section at km 52 + 460 - 53 + 100, i.e. from the designed reservoir (water structure) to the culvert on Główna street	0.28 mln m3	Żory Municipality	Śląskie
168	Odra	Stobrawa	Construction of a reservoir in the Stobrawa river catchment in Oleśno	Construction of a reservoir	0.22 mln m3	Oleśno Municipality Office	Opolskie
169	Odra	Byłyńskie lake	Construction of a lock damming the surface water in the Byłyńskie lake	Construction of a lock	No data	Avena Sp. z o.o. Ltd	Wielkopolskie
170	Odra	Prosna	Restoration of damming on 12 weirs located on the Prosna River in the Wieruszów district	Installing movable gates on the existing weirs	No data	Wieruszów District Governor's Office	Łódzkie
171	Odra	-	Increasing the level of water damming at the pond	Increasing the level of water damming	0.03 mln m3	Niechanowo Commune Office	Wielkopolskie
172	Odra	Struga Mąkowa	Construction of a retention reservoir on the Mąkowa stream below the R-SM-B ditch	Construction of a retention reservoir with an area of approx. 1 ha	0.01 mln m3	Niechanowo Commune Office	Wielkopolskie
173	Odra	Osobloga	Reconstruction of the weir on the Osobloga river in Łowkowie, Strzeleccki commune, Krapkowie district, Opolskie voivodeship	Reconstruction of a weir	0.005 mln m3	Strzeleccki Commune Office	Opolskie
174	Odra	Prosna	Increasing water retention capacity in the catchment area of the Prosna river	Construction of reservoirs	No data	Office of the Marshal of the Łódzkie Voivodeship	Łódzkie
175	Odra	Bóbr	Construction of water reservoirs, the Bóbr river, Łagoda - Wysoka village	Construction of reservoirs	1 mln m3	Nowogród Bobrzański Commune	Lubuskie
176	Odra	Brzeźniczanka (Brzeźnica)	River Brzeźniczanka - Dragowina village, reconstruction of a weir	Reconstruction of a weir	0.08 mln m3	Nowogród Bobrzański Commune/Brzeźnica Commune	Lubuskie
177	Odra	Ścinawa Niemodlińska	Development of project documentation and construction of a reservoir on the Ścinawa Niemodlińska river	1. Development of documentation, 2. Construction of a retention reservoir.	No data	Prudnik Municipality Office	Opolskie
178	Odra	Pрут Canal, Mosiński Canal	Construction of the Sepienko Reservoir	Construction of a reservoir	3.23 mln m3	Kościan Commune Office	Wielkopolskie
179	Odra	Struga Węglewska	Construction of the OKOŃ reservoir	1. Development of technical documentation for the construction of a retention reservoir, 2. Construction of a reservoir with a front earth dam, an overflow and discharge structure, 3. Construction of a fish ladder	0.81 mln m3	Galewice Commune	Łódzkie
180	Odra	Prosna	Construction of a reservoir in Kurów, Wieluń commune	Construction of a reservoir	0.06 mln m3	Wieluń Commune	Łódzkie
181	Odra	Głębokie lake	Development of documentation and stopping the process of the Głębokie lake drying up (Międzyrzecz commune)	1. Development of project documentation and obtaining the necessary administrative decisions, 2. Performing rescue works.	0.06 mln m3	Międzyrzecz Commune	Lubuskie
182	Wista/Odra	Warta-Gopło - O/Józwin IIB Canal	Water transfer from the Warta - Gopło Canal to O / Józwin IIB	1. Intake located above the Koszewo lock, transfer at the level of: Q=0.2 m³/s in the period of low levels in the Gopło lake, Q=0.5 m³/s during the period of the average states in the Gopło lake, Q=1.0 m³/s during the period of high levels in the Gopło lake	No data	Association of Municipalities of the Powidz Landscape Park	Wielkopolskie
